Connecting Smart bulb to the Smart Life APP

Step 1

- Turn off the power supply before installing the light bulb.
- The default color of the bulb is white.

 A yellow triangular warning sign with a black border and a black lightning bolt symbol in the center, indicating a high voltage or electric shock hazard.	<p> DANGER</p> <p>To prevent risk of electric shock during installation and maintenance, please turn off the power before installing the light bulb.</p>
--	--

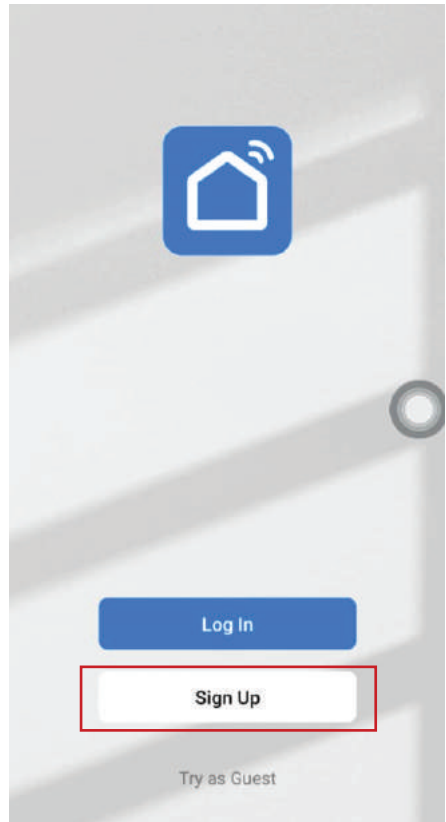

Step 2

- Install 'Smart Life' app on your phone

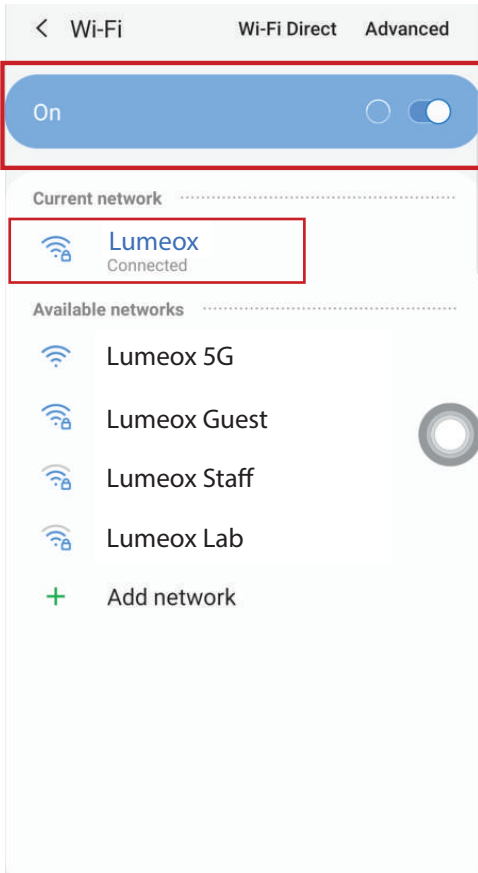

Launch the Smart Life app, click "Sign Up" to register and account. Once completed, please log in.

Note: Please allow app related access permissions, such as Bluetooth access permissions, network access permissions and location access permissions.

Step 3

- Turn on your phone Wi-Fi and connect to a 2.4 Ghz Wi-Fi (5 Ghz Wi-Fi is not supported).
- Next, turn on your phone Bluetooth Function.

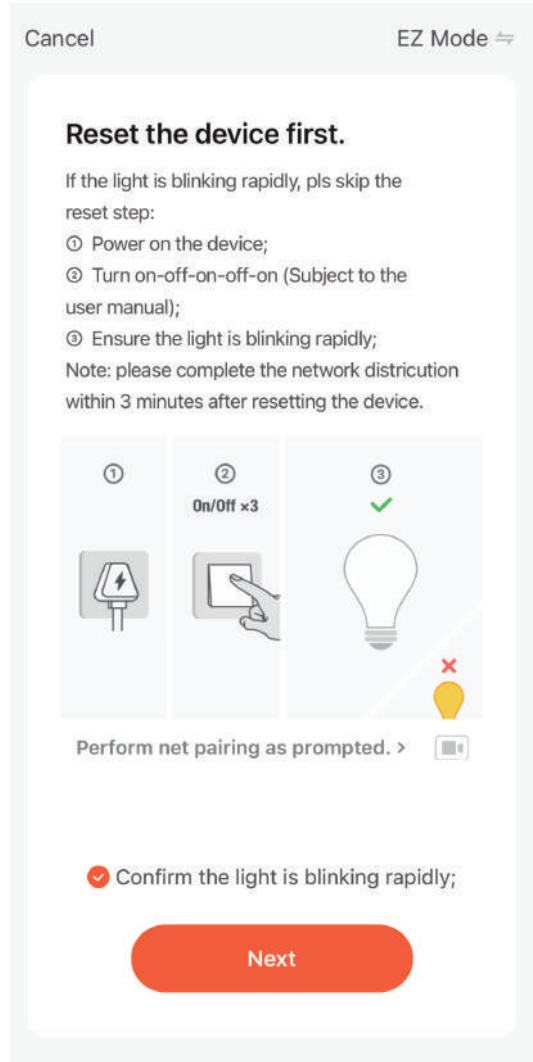

Step 4

- Initialize the smart bulb device.

If the light is blinking rapidly, you may skip reset step.

Else,

1. Power on the device.
2. Turn on-off-on-off-on rapidly.
3. Ensure the light is blinking rapidly.

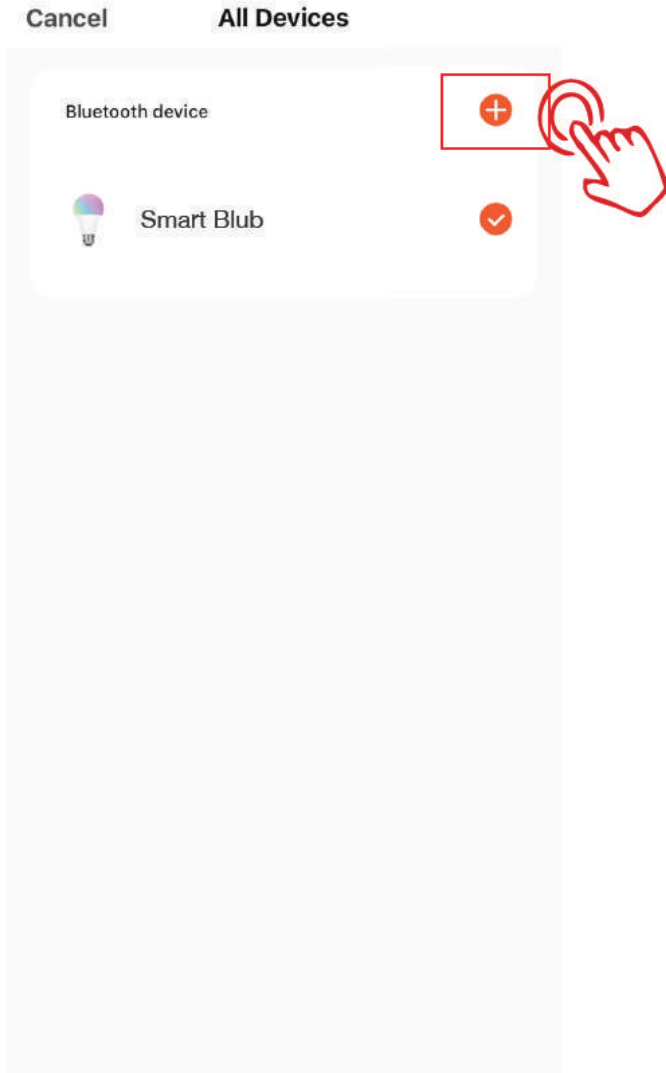

Step 5

- Launch the Smart Life APP, the connection window will pop up automatically.
- Click “Go to add”.

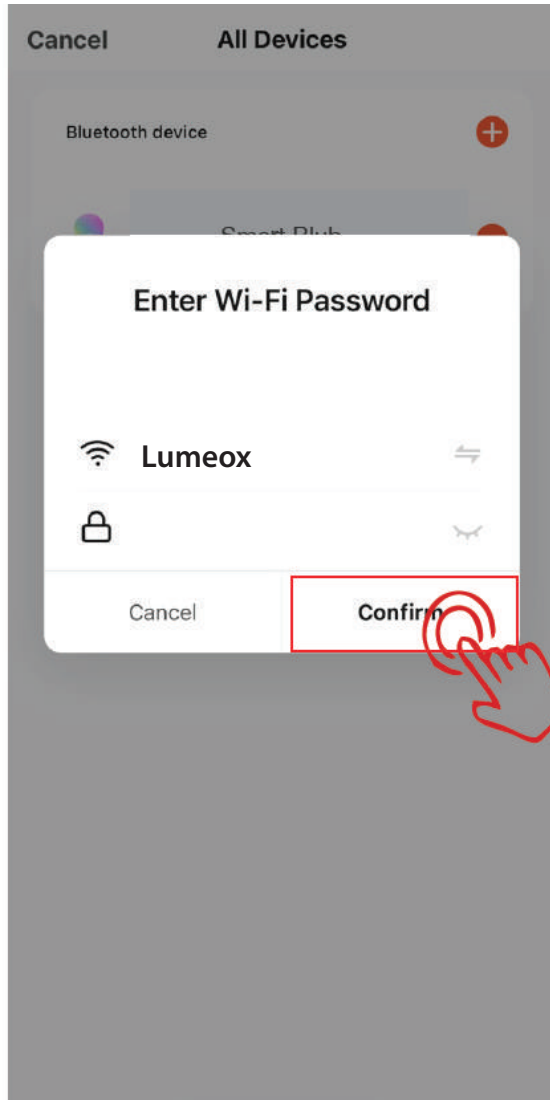

Step 6

- Click “+”

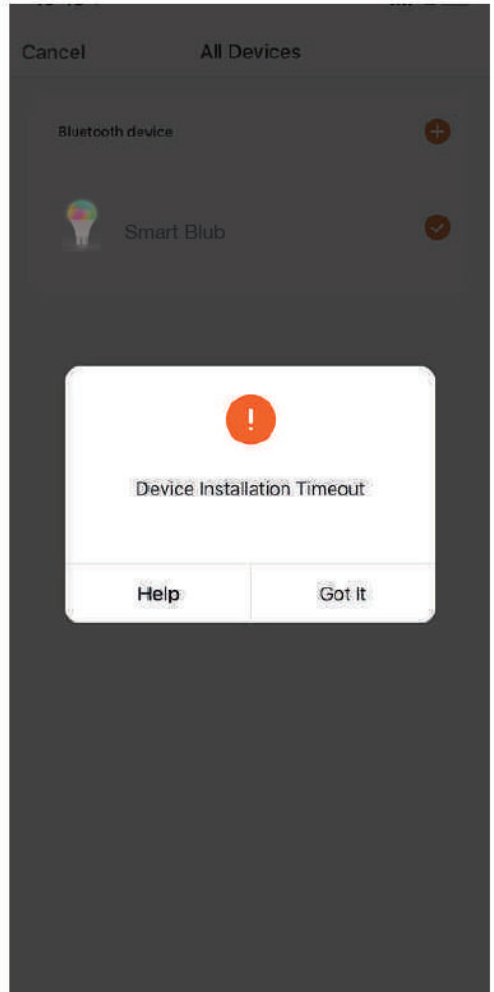

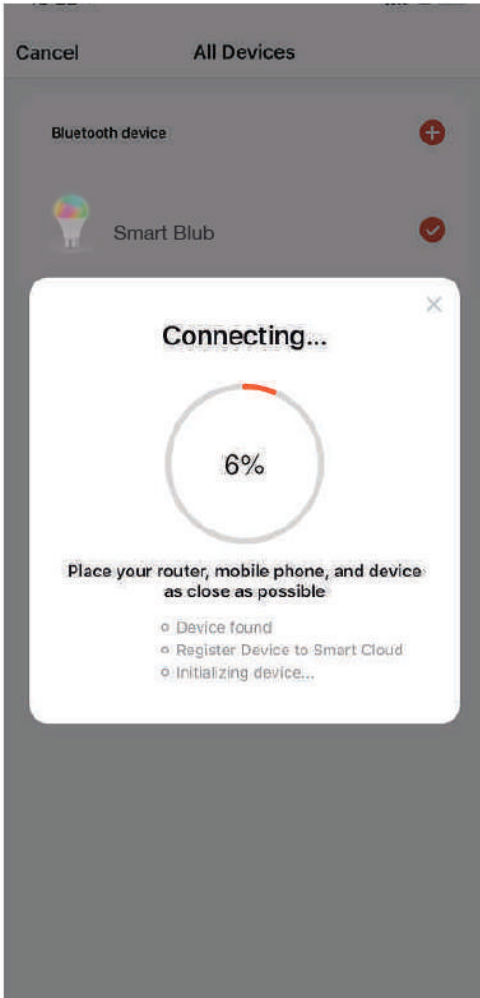

Step 7

- Key in the Wi-Fi password and click “Confirm”.

Step 8

- Wait for it to connect.

Step 9

- After connection is successful, click “Done”.

Step 10

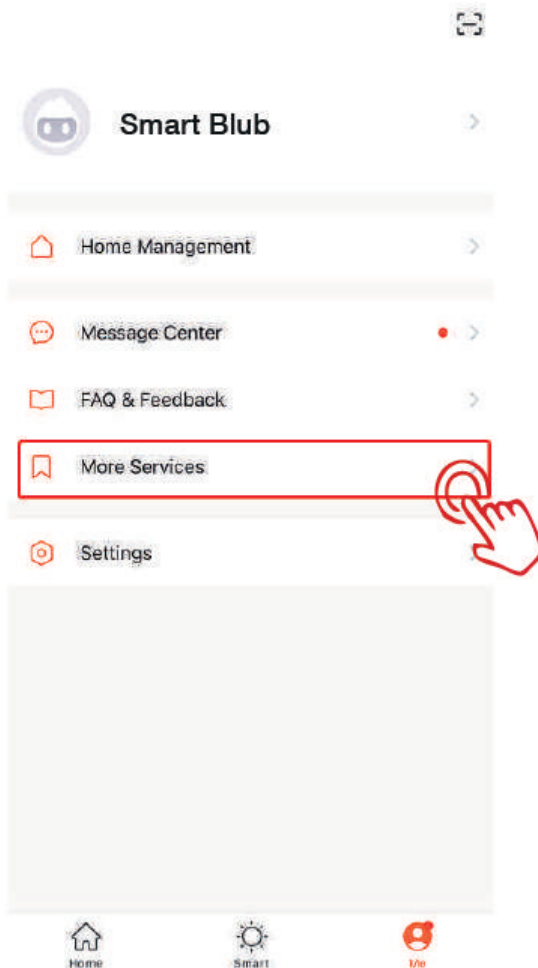

- Setup is not complete. You can control the smart bulb with Smart Life APP now.

Connecting to third party system

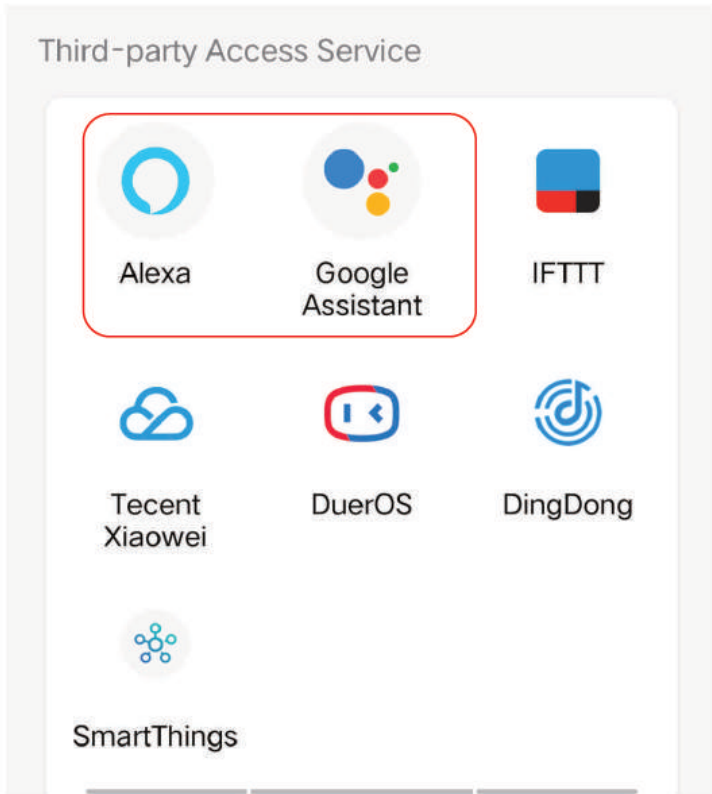

Step 1

- At homepage, click “Me” button.
- Next click “More Services” button.

Step 2

- Select the third-party applications which you would like to operate.

Step 3

- If you have selected Alexa, please sign in with Amazon.

Binding your app account to your Amazon account allows you to control Alexa-enabled devices through Amazon Echo speakers (ex. "Alexa, turn on light.")

Sign In With Amazon
