⚠ Please pull out the transparent chip from the bottom of the IR remote to ensure that the battery is powered properly.

⚠ Make sure the IR remote aims at the IR receiver within the sensing distance. The angle of the IR receiver is 120° and the sensing distance is 8 meters. Please remotely control within the sensing range.

CONTROL WITH APP ON YOUR PHONE

Step 1. Install Smart Life app on your phone

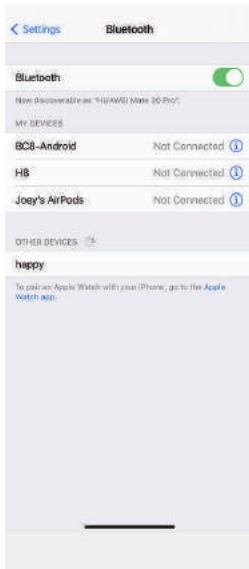

Method 1: Download the App by searching "Smart Life" in App Store (iOS) or Google Play Store (Android).	Method 2: Scan the below QR code and switch to App Store (iOS) or Google Play Store (Android) to download.
	

Open the Smart Life App, click “Sign Up” to register an account and log in.

Note: Please allow App related access permissions, such as Bluetooth access permissions, network access permissions, and location access permissions. Otherwise, you may fail to connect.

Step2. Turn on your smart phone Wi-Fi function and connect a 2.4Ghz Wi-Fi(5Ghz Wi-Fi is not supported).

Turn on bluetooth button on your phone

Step3.Initialize the strip light device

- ①.Power on
- ②.Turn On-off-on-off-on
- ③.Ensure light is fast blinking

Attention:Please complete pairing process within 3 minutes after device is Initialized.Otherwise the connection may timeout and fail.

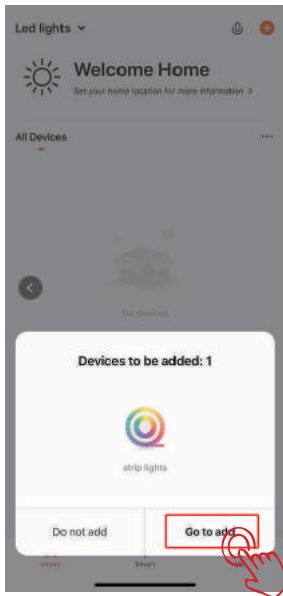

①

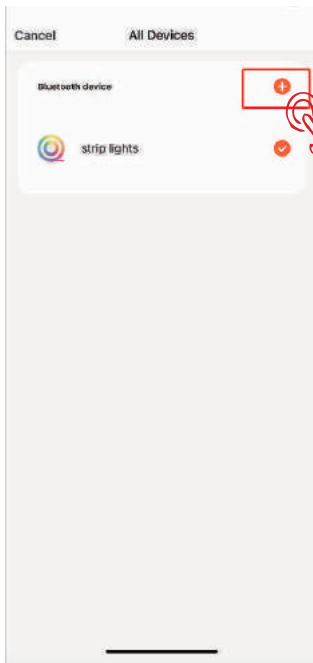

②

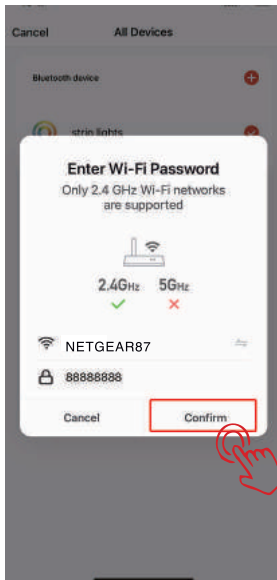

Step4. Open the Smart Life APP, the connection window will automatically pop up, click "Go to add"

Step5.Click "+"

Step6.Enter the Wi-Fi password and click " Confirm "

Step7.Wait for connecting

connecting

If the device connection timed out, please repeat the operations from step 3

Step 8. After the connection is complete, click "Done"

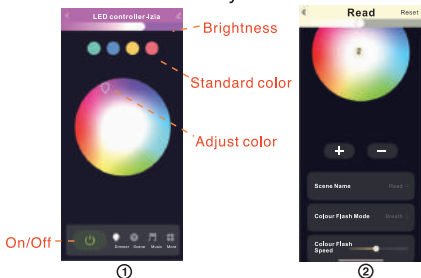

Step9.Connection succeeded.You can control the lights with Smart Life app now.

MAIN USER INTERFACE

1. Dimmer: Change the color and adjust brightness

2. Scene: Customize your color mode

3. Music: Change the color by music rhythm

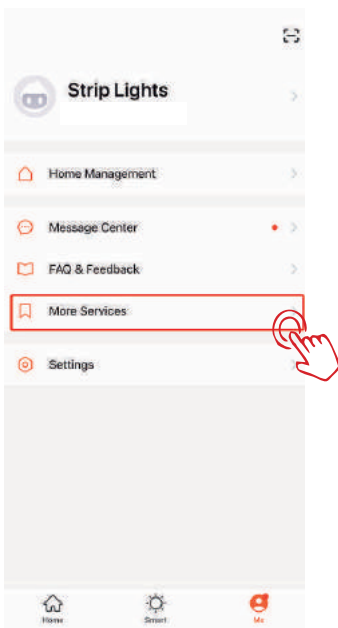

4. Click "More" to use the function of timed on and off

5. Click "More" to use the function of countdown off

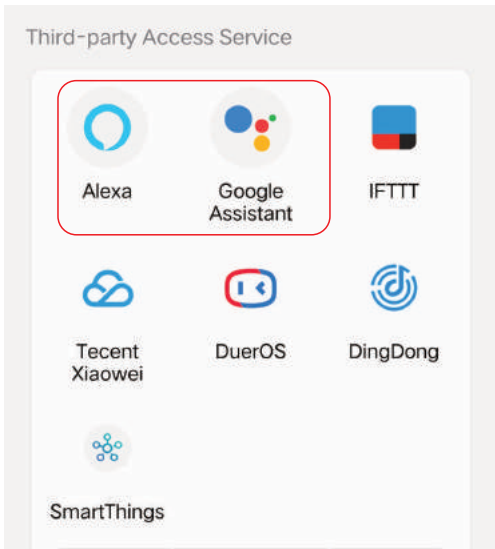

Support 3rd party Control[Alexa&Google Home]

1.Select the "Me" interface and then click "More Services"

2. Select the third-party application to be operated.

Click "Sign In With Amazon"

Binding your app account to your Amazon account allows you to control Alexa-enabled devices through Amazon Echo speakers (ex. "Alexa, turn on light.")

FCC Caution

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body
